

*Saccharomonospora glauca* K194  
RNase P RNA

The diagram illustrates the secondary structure of the *Saccharomonospora glauca* K194 RNase P RNA. The RNA sequence is shown as a series of nucleotides (A, C, G, U) connected by lines representing base pairs. The structure features several stems and loops, including a large internal loop on the left and a long stem in the center. The sequence begins with 'CAG' at the top and ends with 'GAUGCGGCCCCAAG' at the bottom.
